3. Employee must have been in good standing prior to their last day of employment.
4. The 15 month time frame shall be calculated from the employees prior official last days employed to their rehire official commencement date.

Sick Time Accrual

1. The sick time accrual rate for administrative and support staff employees is determined based on the number of months worked and the Sick Time Policy 30.004.
2. Sick time begins accruing on the first day of the month following the month of rehire. For example: An employee is hired on October 10, sick time begins to accrue on November 1.

-
3. The total amount of paid sick time for which an employee is eligible accrues over the entire fiscal year in which it is earned. Academic year employees accrue sick time for the actual months they are required to work.
 4. Sick time that was earned in a previously held position, prior to the date of separation of employment, will only be banked as a beginning balance if the employee is rehired within a 15-month period of their separation date. The amount of the sick time balance retained will be discussed during the hiring process.

Vacation Time Accrual

1. The vacation time accrual rate for administrative and support staff employees is determined based on the number of months worked and the corresponding policy of Administrative Staff Vacations 30.001 and Support Staff Vacations 30.002.

Unused accrued vacation time is paid out upon employment termination. Employees who are rehired will not be eligible to establish any rollover of vacation time as that balance would be equal to zero due to the payout.
